

At Yoplait, we believe that growing kids need strong bones. That's why Minigo, MiniYop, Tubes and YOP are specially made with calcium and vitamin D **to help build strong bones.**

Use our growth chart to see how quickly your kids are growing.

This template will show you how to put it up easily.

IT'S TIME TO MEASURE!

1. Cut out the white outlines on each page of the chart.
2. Put the template against the wall, flush with the floor.
3. Stick the chart to the wall and ensure the red parts of each page line up.
4. Measure your child!

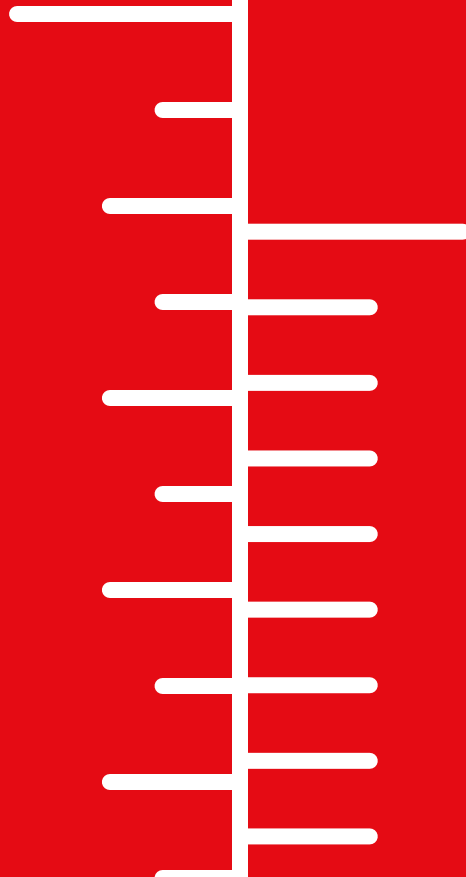

Align the bottom of the chart with this line

6"

Place the bottom of the sheet against the wall, flush with the floor

yoplait

180

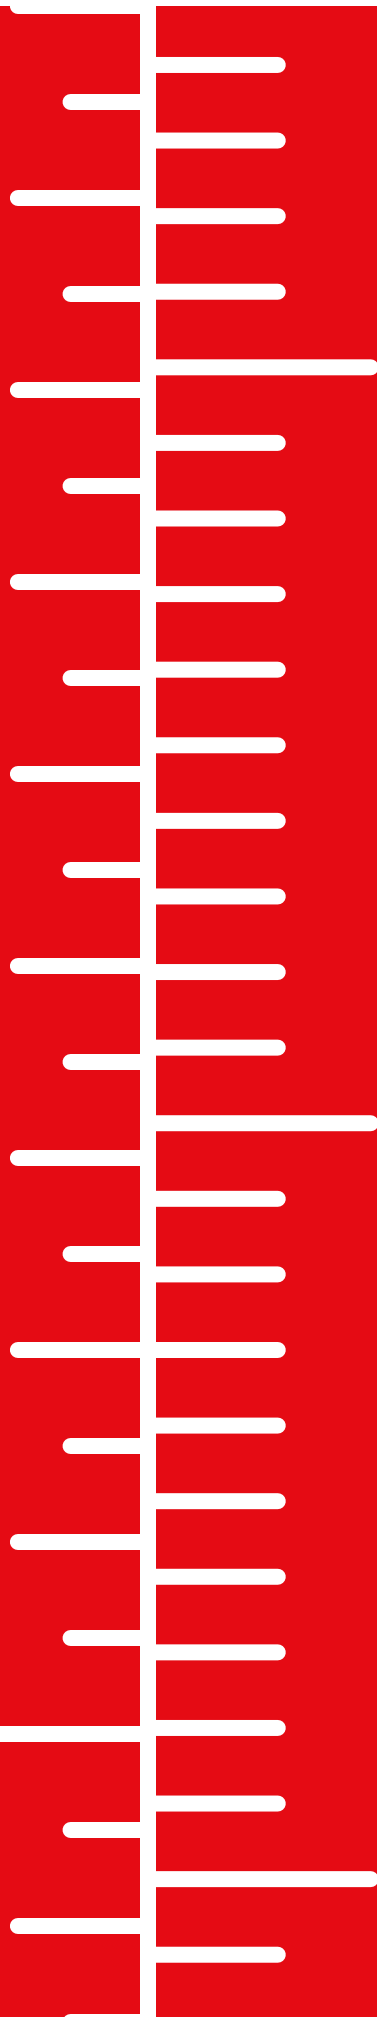

One day,
I'll be
this tall.

5

I'm taller
than 6
Tubes!

4

140

130

120

**Almost
tall enough
for all the
rides!**

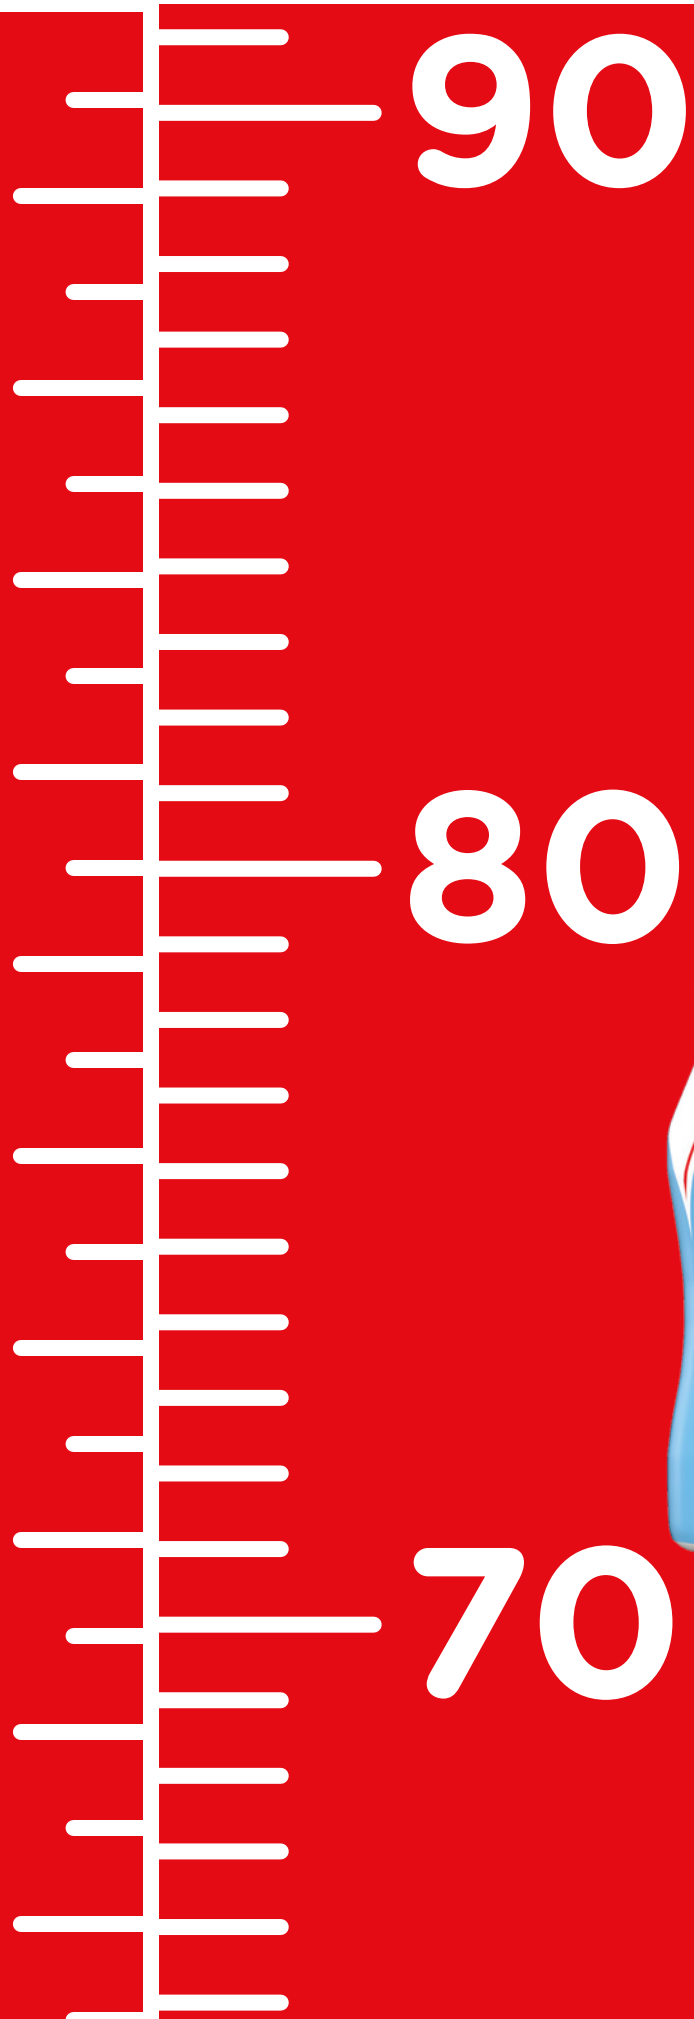

110

100

Soon,
I'll have
a big kid
bike!

2

In no time,
I'll be able
to reach
the Minigos
by myself.
